Snakes and Ladders

Rules

Dignity Do’s & Don’ts
RULES: Snakes & Ladders - Dignity Do’s & Don’ts

Remember that aim of the game is to provide a lighthearted way of discussing the issues around Dignity, Respect and Equalities and how we as professionals can influence our own and others behaviours and responses.

1. The games should be played by two or more players each choosing a different colour counter.

2. Players take it in turns to throw the dice and move the number thrown.

3. If a player lands on a square with the foot of a ladder in it they must undertake a “Ladder Challenge”. To do this:
   • Another player takes the a Challenge card off the top of the “Ladder” pile, the same person then reads aloud the question on the card.
   • The player undertaking the challenge must give an appropriate answer to the scenario on the card to climb the ladder.
   • The remaining players then discuss the answer and decide on whether that would be an appropriate response. Remember there may be more than one appropriate response.
   • If the remaining group of players agree it is an appropriate answer the player at the foot of the ladder climbs to the top of that ladder.

4. If a player lands on a square with the head/top of a snake they must undertake a “Snake Challenge”. To do this:
   • Another player takes a Challenge card off the top of the “Snake” pile, the same person then reads aloud the question on the card.
   • Should the question be a multiple choice question all must be read aloud.
   • The correct answer will be in RED text.
   • The player undertaking the challenge must answer the question correctly to prevent descending to the bottom the snake.

5. When playing, should you run out of either challenge cards before the game is completed players can take it in turn to provide a scenario or question for each challenge as it arises.

6. The winner is the first to land on the final square with an exact throw of the dice. Alternatively the person closest to the winning square when the playing time finishes.
